

Consent for Audio and Video Recording of Psychotherapy Sessions for Clinical Supervision

CLIENT NAME: _____

DATE OF BIRTH: _____

TREATING CLINICIAN: _____

CLINICAL SUPERVISOR: _____

PURPOSE OF RECORDING

Your therapist participates in clinical supervision as part of their professional practice and development. Clinical supervision allows your therapist to consult with a qualified supervisor about clinical work and receive feedback intended to support the quality of care provided to you.

With your permission, your therapist would like to record psychotherapy sessions so that portions or all of a session may be reviewed with the clinical supervisor named above. Reviewing an actual session can allow the supervisor to provide more specific feedback than verbal discussion alone.

Participation is entirely voluntary. You do not have to agree to recording in order to receive services, and declining or later withdrawing your permission will not negatively affect your treatment.

WHAT WILL BE RECORDED

By signing this form, you authorize the audio and video recording of psychotherapy sessions. Recordings will be made only during psychotherapy sessions with your knowledge. Your therapist will inform you when a session is being recorded.

You may ask that recording not occur during a particular session, and you may ask your therapist to stop recording at any time.

HOW THE RECORDING WILL BE USED

Recordings will be used only for clinical supervision related to your therapist's work with you. Recordings may be reviewed by your treating clinician and the clinical supervisor identified above.

Recordings authorized through this form will not be used for public presentations, classroom teaching or training unrelated to your therapist's supervision, research, advertising, marketing, social media, publication, or any other purpose not described in this consent.

CONFIDENTIALITY AND SECURITY

Recordings contain confidential mental health information and will be treated as protected health information.

Recordings will be made using Google Meet and stored in the treating therapist's HIPAA-compliant Google Drive. They will not be intentionally stored on personal or otherwise unsecured devices or accounts, and will not be shared through unapproved email, messaging, file-sharing, or cloud-storage services.

Access will be limited to the treating clinician and clinical supervisor for the purposes described in this consent. The clinical supervisor is also required to maintain the confidentiality of information reviewed during supervision.

RETENTION AND DELETION

Recordings will be retained only as long as reasonably necessary for the supervision purpose described above. After the recording has been reviewed in supervision, it will be securely deleted, and in no event later than 30 days after the date it was recorded.

YOUR RIGHT TO CHANGE YOUR MIND

You may withdraw your permission for future recording at any time by informing your therapist verbally or in writing. No additional sessions will be recorded unless you later provide new consent, and you may ask your therapist to stop an ongoing recording immediately. Withdrawal of consent will not affect your ability to continue receiving treatment and does not undo a supervision review that already occurred while your consent was in effect. Any existing recording will be handled and deleted according to the terms described in this form. Even while this consent remains active, you may decline recording for any individual session without withdrawing your overall consent.

DURATION OF PERMISSION

EFFECTIVE DATE: _____	EXPIRATION DATE: _____
-----------------------	------------------------

This authorization may not remain in effect for longer than six months without renewed written consent.

CLIENT ACKNOWLEDGMENT AND CONSENT

By signing below, I acknowledge that I have read or had this form explained to me; understand why recordings are being requested, how they may be used, who may access them, how they will be protected, and when they will be deleted; have had an opportunity to ask questions; understand that agreeing to recording is voluntary and that declining will not affect my treatment; and understand that I may ask for recording to stop at any time or withdraw permission for future recordings at any time.

I voluntarily authorize the treating clinician identified above to audio and video record psychotherapy sessions under the conditions described in this form.

CLIENT SIGNATURE: _____	DATE: _____
PARENT / LEGAL GUARDIAN (if applicable): _____	RELATIONSHIP: _____

If a parent or legal guardian signs, I certify that I have the legal authority to provide this consent on behalf of the client.
